REASONS FOR ALLOWANCE

1. Claims 138-146 are allowed over the prior art of record.
2. Claims 1-137 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach of the claimed invention. **The feature of independent claims 138** directed towards allowable subject matter is during the second period, creating a second ground reference at the fourth bus bar such that the second voltage signal and the second ground reference creates a second varying voltage potential across the second resistive screen during the second period, during the second period, sampling the second varying voltage potential via at least one of the first bus bar and the second bus bar, and determining a Yraw value based upon sampling the second varying voltage potential. **The feature of independent claims 143** directed towards allowable subject matter is during the second period, creating a second ground reference at the fourth bus bar such that the second voltage signal and the second ground reference creates a second varying voltage potential across the second resistive screen during the second period, during the second period, sampling the second varying voltage potential via at least one of the first bus bar and the second bus bar, determining a Yraw value based upon sampling the second varying voltage potential, determining a Ymax value based on the second voltage reference signal, determining a Y-min value based on the second ground reference, and determining a Y-pixel location based on the Yraw value, the Ymin value, and the Ymax value. **Kent teaches of** a like display device, but fails to teach of the above claimed features. **Therefore** the above said features in combination with the other limitations of the above independent claims 138 and 143, and therefore claims 138-146, are found to be allowable over the prior art of record.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **David L. Lewis** whose telephone number is **(571) 272-7673**.
